EVO5 700 HRV HEPA: THE NEW EVO5 SERIES BEST FILTRATION

Indeed, this heat recovery ventilator is equipped with a HEPA filter that removes 99.97% of allergens and other microscopic particles in the air. It is an obvious energy-efficient choice with its ENERGY STAR® certification. The EVO5 700 HRV HEPA has an ultra-quiet operation, barely audible at low speed (2.5 sones), thanks to the advanced design of its blower. Furthermore, since the EVO5 700 HRV HEPA ducting diameter is reduced to 5 inches, its installation is now easier and faster than before.

- For homes up to 3,000 sq. ft.*
- 5-in. diameter ports mean smaller duct to ease installation
- Integrated defrost control; allows fast and easy adjustment of the defrost duration according to climatic zones
- Electronic wall control with LCD screen included
- Removable terminal block to ease wall control connections
- Basic installation kit available no. IKS1000 (sold separately)
